Dear Matt,

Well the weather finally matches the season and Wizard Computer is ready. We provide all of our technicians with four wheel drive vehicles and some very stylish warm winter coats, as some of you may have noticed. So if there is a storm outside and you are having a network problem inside, just call us and we will be there for you. We have a big announcement and a correction on a recent LCD TV offer we made in this issue, so please read on....

Whether you have an existing website that needs to be refreshed or you are thinking about creating a new website but don't know where to begin, Wizard can help. With more and more consumers and businesses using the Internet to research service and product information, an online presence is a must have for any company that wants to remain competitive. Every company will have different

requirements when it comes to website development, which is why Wizard will offer free consultation before presenting customized solutions.

Did you know that search engines such as google are constantly re-indexing their database and the websites with the freshest content rise to the top of search results. So even if you have an existing website, it can be tweaked on a regular basis to show new information and remain relevant when people are searching for your products. We are very excited about being able to offer this service to our clients. Please contact us if you would like to schedule a free consultation.

Dell LCD TV Offer- Correction, It's even better.

A week ago we sent out an offer for a 32" LCD HD TV for the price of \$899.99 and got a great response. But the model given in the email and the link in the email was the wrong TV! It showed the 3207c which was on sale on the Dell website for \$1099.99. To the pleasant surprise of the customers who had ordered the TV, the right model is the W3202MH which retails on Dell for \$1400.00 Not only is it great for watching HD programming, but it also makes a great display monitor for presentations in the board room. The correct link is below. We will be able to order the TV at this price until 2/15/07. You can order by calling us at 781-341-2222 or you may reply to this email.

Dell 3202MH LCD TV

Got Spam? Wizard can stop it.

Spam is not only annoying, it can reduce the productivity of your employees and your network. Most anti-spam products work on the desktop level still allowing spam to tie up your network and puts the responsibility of managing junk mail onto each individual user. For those of you using a portable email device, such as a Blackberry, even just a few spam messages a day can be a nuisance. But there is a solution.

Wizard has partnered with Appraver to develop an off- site spam filter for our clients. Many of you are already using the product and the feedback has been very positive. Over the next couple of weeks we will be contacting every client to start a 30 day free trial of this product. If you can't wait for us to get to you, feel free to talk with your tech on the next scheduled visit or call us at 781-341-2222.
